## SUMMARY:

My name's Sabli Jr. I'm a self-thought frontend software developer, who is really passionate about coding and start-ups as I dream to found one myself one day! My love of technology and curiosity led me to code. I love exploring and learning, I'm a lifelong learner and my talent is the ability to learn expeditiously.

Because I hadn't had an opportunity to finish school in Sudan for various reasons, when I found coding, it was a discovery moment for me to satiate my hunger for learning.

My goal is to work in a company where I can deliver business values, while also leveling up my skills as a developer, I like to seek out learning opportunities and not be afraid to fail and struggle as a part of learning.

## SKILLS:

- HTML
- CSS
- Javascript
- React
- Redux Toolkit
- Git
- Adobe Suite (Pr, Ps, Ai)

## LANGUAGES:

- Arabic
- English
- French (A2)

## WORK EXPERIENCE:

### Falconce App

<https://falconce.netlify.app>

- Falconce is a crypto prices & news tracking web app, I build this app with three APIs, one for news and the other 2 are from CoinMarketCap & CoinGecko for crypto data.
- you can check the last-minute prices of the top 250 coins or you can look it up for any coin in the market. Plus, some latest news.
- **Techs I used:** CSS, React, Node/Express

### Wordle Clone App

<https://sablijr.github.io/WordleClone>

- Wordle is a word-guessing game that gives you six attempts to find the word of the day! You'll start out by randomly guessing any five-letter word.
- I used two APIs from the Rapid API store, one to generate a five-letter random word and another to check if the guessed word really is an English word.
- **Techs I used:** HTML, CSS, JavaScript, Node/Express

### Video Editor and Content creator

@ African Media Association Malta ( 2020 – 2021 )

- Creating content for their weekly news channel.

# Nellie Iglesias
